# Accelerate Your Business Performance Through Sustainability

Our mentoring and coaching program helps organizations accelerate sustainability performance through hands-on support while utilizing our award winning online Sustainability Management System (SMS). **This customizable program is available to food and beverage manufacturers in Canada.**

## Flexible Approach

Our expert coaches offer over 15 years of experience helping embed sustainability into the DNA of organizations to help your business with:

- Strategic Planning & Change Management
- Sustainability Management
- Continuous Improvement

**Based on feedback from organizations that have completed the program, 100% felt the coaches' knowledge and support was very good/excellent.**

## Getting Results

- Identify improvement opportunities to cut costs by streamlining operations and advancing environmental and social performance
- Optimize your operations and improve business competitiveness
- Proactively respond to consumer and market demands
- Improve employee engagement

**Approximately 20 technical improvement opportunities identified per company.**

*“With coaching and mentoring support from Provision we developed and implemented a Sustainable Strategic Plan. This Strategy supported by the tools in the SMS has provided our company with the recipe to succeed across multiple platforms and disciplines. We are now better prepared to adapt to changes, increase our efficiencies, reduce waste and improve overall competitiveness..”*

ALBERT BORGIO, VICE PRESIDENT, QUALITY CHEESE

# PROVISION COALITION

MAKING FOOD SUSTAINABLY

## SMS Support Program Offerings
